SAN FRANCISCO, FRIDAY, JULY 7, 1922

No. 23

—:— The Railroad Strike —:—

Last Saturday morning the railroad shopmen in San Francisco and about the Bay Region walked out on strike rather than yield to the dictation of railroad officials and the Railroad Labor Board in what they consider an unfair and unreasonable attempt to force upon them unbearable conditions. The strike in this region, and all along the Pacific Coast is from 95 to 98 per cent effective, very few workers remaining in the shops when the call to cease operations came. The crafts involved are the Boilermakers, Blacksmiths and Helpers, Sheet Metal Workers, Electricians, Carpenters, Stationary Firemen and Machinists. So completely tied up are the shops and so large the numbers involved that it is not likely the railroads will be able to operate at all for some time to come because there are not strikebreakers enough in the country to fill the positions vacated even if they were competent to do the work, which they are not as a rule.

The striking men have been holding meetings daily in the Labor Temple at Sixteenth and Capp streets, and considering every phase of the situation and planning to hold their lines tight until victory has been gained.

The railroads have been advertising for men, but according to reports at the headquarters of the men there has been practically no response to the advertisements.

The striking shopmen have been advised by their officers to keep their eyes and ears open and their mouths shut in order that the railroads may not be able to stir up trouble. It is the desire of the strikers to win the strike by peaceful and orderly methods and not to allow the companies to win public approval by provoking the men to any lawless acts.

It is probable that before another week rolls by the shopmen will be joined in the strike by other railroad organizations, thus more completely crippling the railroads. Already the officers of some of the organizations still at work have been clothed with the authority by the membership to call the men out in the event such a course seems desirable, and they are watching developments with critical eyes.

From Fresno, Bakersfield, Los Angeles, Sacramento and other Coast points come reports that the men came out 100 per cent and are standing firmly with the determination to win the strike.

Reports from the East are also all of an optimistic character, so that the strikers are confident of the outcome.

In a statement issued by L. S. Gordon, secretary of the Federated Shopmen, he says: "The situation over the whole country could hardly be better, and there is no question as to the success of the strike if all men will sit steady in the boat for a short time.

"The men out on strike are warned against doing any damage to property. It is very important that the railroad property be protected, and we should do our utmost to see that NO ONE does any damage, either personal or to property. If there ever was a time when 'booze' should be let alone, now is that time, and the committees should see that no one who is under the influence of liquor is allowed to take any active part on committee work or to endanger the cause."

The union label very often interests us in ourselves because it interests us in others.

NOLAN FLAYS WINSLOW.

By International Labor News Service.

WASHINGTON, D. C., June 30.—Labor got a hearing in Congress Thursday, June 29, after six months of patient, persistent effort to bring out the facts in the government's discrimination against American employees in the Panama Canal Zone.

Chairman Winslow, of the Committee on Interstate and Foreign Commerce, comes from Massachusetts and has never been friendly to labor. He is particularly friendly to those who believe in solving labor problems by cutting wages and increasing hours. Winslow passed the buck for six months.

After six months it became so apparent that Chairman Winslow had no intention of giving a hearing to the Canal employees that Representative Nolan, chairman of the Committee on Labor, denounced the attitude of Chairman Winslow and his committee on the floor of the House. His attack came in the midst of a long-winded discussion about the salary of a United States marshal for the Panama Canal Zone. Congressman Nolan said in the course of his address:

"The commission went there and made some recommendations that took away from the Panama Canal employees privileges that they had from the days of Theodore Roosevelt, conditions of employment down there that were given to them as an inducement to go from the States to the Panama Canal Zone. They took away from them free rent, free light, free water and free fuel, privileges given to every white man working for any concern in the tropics. This commission also made a recommendation that hundreds of white American citizens be discharged from mechanical positions, skilled and semi-skilled, on the Panama Canal Zone, and that those positions be turned over not to native Panamans but to alien Jamaica negroes, because they could be hired cheap.

"That is another recommendation that this commission made which recommends the passage of this pending bill. They made the further recommendation, after cutting down all of these employees and dropping them from the payroll, that the military chief of the Panama Canal Zone, Colonel Morrow, have his salary almost doubled, and that the high officials in connection with the administration of affairs down there, along with Colonel Morrow, have their salaries increased. Those are some of the recommendations of the

commission that went to Panama, that took away from the white American citizens privileges of employment that this government guaranteed them when it asked them to go down there to Panama.

"The men are not complaining of the reduction of wages. According to law they had to take the reduction in wages. Their wages are based on the wages paid in the navy yards, and when you took away the bonus from the navy yard employees you also took it away from the Panama Canal employees. When the wages of navy yard employees were reduced, automatically that reduction went into effect among the employees of the Panama Canal. They are not complaining about that, but they are complaining about this government of ours violating its agreement with them which it made when it took these men to the tropics, conditions which surround every white man working for a concern in the Tropics. In doing this that commission has not been consistent. There is a whole lot more to that report that we would have liked to exploit before the Interstate and Foreign Commerce Committee if we had had a fair opportunity and could have had hearings to air the whole thing."

After Representative Nolan's airing of the matter on the floor of the House, the pressure became too much for Chairman Winslow and he finally consented to the hearing on the bill restoring the perquisites to the American Canal employees. Six months were required to get a beginning in the program of restoring the rights enjoyed by American workmen in the Panama Canal Zone before the present administration came into power.

DEATHS.

The following members of San Francisco unions died during the past week: David A. Hanley of the stationary engineers, Robert Johnston of the shipwrights, Louis W. Porter of the cooks, Jeremiah J. Sullivan of the riggers and stevedores.

CULINARY WORKERS WIN.

A strike of the culinary workers in Sacramento which threatened to spread throughout the city was settled this week by an agreement being signed between the unions and the Restaurant Owners' Association. The demands of the unions were complied with in the new contract.

THE METHODS OF PACKERS.

Libby, McNeil & Libby, big food packing concern which is said to have been using typical high-pressure methods and tactics in its dealings with ping its fingers at the laws—in selling securities has been defying the State of California—snapping its fingers at the laws—in selling securities in this State in violation of the Corporate Securities Act, otherwise known as the Blue Sky Law.

The company is alleged to have sold stock to employees in violation of the law on virtually a "buy-this-stock-or-lose-your-job" plan.

The State Corporation Department, under the directions of Commissioner Edwin M. Daugherty, has for many months been endeavoring to have the company comply with the law so that its stock illegally sold in this State could be validated. Notwithstanding every effort on the part of the department, the company has taken no steps to comply with the law and correct the situation.

Hundreds of employees of this company in California have been almost compelled to purchase this stock or lose their jobs. It is said that subscriptions totaling \$40,000 were taken from the men and women employees of the Sacramento plant alone.

In Sacramento an employee of the company, father of a dozen children dependent upon his earnings for food and clothing, bought some of this stock from the company.

Other employees of the food packing concern included an aged couple who contracted to purchase the company's stock. Both of them, according to reports, were on the verge of suffering from privation during the cold, dreary winter. The company took from this aged couple the money which they could have used to buy food and wood and to provide shelter and clothing.

It is alleged that after subscriptions were taken employees were laid off by the score.

Another employee on the list of those who bought to save their jobs was a cripple who gave his meagre earnings—the few dollars that he was able to rake and scrape together—for shares of stock—and he was then placed on the laid-off list.

Complaints by the score were brought to the Corporation Department against the actions of this company. Affidavits were prepared by former employees of Libby, McNeil & Libby giving in detail facts and data surrounding the sale to them in this State of stock by this company, which has repeatedly refused to comply with the laws of California and place itself upon the same plane as California corporations and other foreign corporations by obtaining permission before selling its securities.

These affidavits were placed in the hands of the proper authorities and complaints have been issued through District Attorney Hugh Bradford's office in Sacramento charging Libby, McNeil & Libby, of Chicago, with a felony in violating the California law.

The State Corporation Department has placed at the disposal of the District Attorney and his deputies, Clifford Russell and Romeo J. Hughes, who have had the direct handling of the entire matter, all the facilities of the Department to the end that the officers and higher-ups of this company should answer to the law for the alleged violations.

Commissioner of Corporations Edwin M. Daugherty has declared that he will leave no stone unturned to see that justice is done, and he will use every authority, every power and all the machinery at his disposal to this end.

Organized labor's claim that the employers' hatred of the I. W. W. is camouflage was indorsed in Portland, Ore., when a group of employers went to the I. W. W. hall and employed more than fifty men. They were put to work on the waterfront, where a strike of longshoremen is on.

UNITED LABOR PRESS OF CALIFORNIA

FRIDAY, JULY 7, 1922.

The fact that the publicly owned hydro-electric system of Ontario is selling power at one-half the price charged across the American boundary has been written into the record of the official proceedings of Congress. It has also been recorded that the Canadian cheap power is drawing American capital across the border.

In the press dispatches last week it appeared that the French General Confederation of Labor, which met at St. Etienne, France, went on record in favor of Soviet Russia and Bolshevism. This organization is not the old French General Confederation of Labor, but is composed of the extremist and radical factions that in the beginning of this year seceded and in some instances were expelled from the regular trade unions of France. The seceders adopted the word "unitarian" or "united" as part of the name of the national organize to emphasize the idea that they were opposed to a division in the trade union movement, although the only condition on which they were ready to remain loyal thereto was that they be given complete control of the offices and policies of the movement.

For eight weeks this newspaper, in co-operation with the International Labor News Service, has been publishing important news stories which have been suppressed by the daily press and the press associations. These stories have all been of first page value. Each story has been as important as any news story published during the eight weeks. Some have been sensational to a high degree. All have contained facts of vital importance to the public welfare. Strangely, these stories have revealed facts which certain powerful interests do not like to have revealed. Some of these stories have been forced into print in daily newspapers following their publication by the labor press. It is the opinion of the International Labor News Service that there is a constant suppression of vital news and that only a militant effort on the part of the labor press of the United States can pry off the censorship of money power that now clamps down the lid on truth. This newspaper, together with the International Labor News Service and 126 other labor newspapers, has shown that there is suppression. It has not only pointed the accusing finger, but by eight specific examples it has proved its case. What has the daily press to say in explanation? What have the press associations to say? Or do they regard the explanation as being too obvious? The end is not yet. The people must know the truth!

Reaction in the Saddle

The present Congress is one of the most reactionary we have had to endure during the past fifteen or twenty years. Not since the days when Reed and Cannon dominated national legislation has there been a Congress so much to the liking of the interests that prey upon the people, yet these interests are not satisfied and are planning to make the next Congress even more subservient to them. Instructions are being sent out by large national organizations representing these elements urging the membership to exercise particular care in making contributions to the campaign funds of the two major parties, and particularly when donating toward the expenses of individual candidates in order that no champion of the people may be aided in gaining a place in the next Congress.

The special interests are always alive and watchful in their own behalf. They very frequently are enabled to carry their program through because of the lethargy of the people before the day of election. That is to say they strive to make the right kind of nominations on the party tickets at the primaries, and then when the general election time comes around they have little to worry about. It is a game, however, that the people should be able to play with even greater success if they would but devote a little time and attention to the selection of those candidates who can be depended upon to stand for a square deal for all alike. There are always candidates of this character looking for nominations, but the apathy of the large percentage of the voters usually results in their defeat and in the triumph of the minikins of greed.

This condition of affairs must be changed, but such a desirable result cannot be attained unless the people are registered and prepared to go to the polls and vote. The registration in San Francisco is at this time disgracefully low, which is not a very encouraging sign concerning the interest many are likely to take in the approaching elections. It will be of no avail to let the tricksters control the primaries and then begin to cry about what they do after they have gained the victory. And it is a fact that about the only activity, in a political way, that thousands of citizens indulge in is the small privilege of criticising officials who have been ushered into office without their votes. They may get some little satisfaction out of that sort of conduct, but it is not conducive to good government, and those who are so careless of their rights as citizens properly should be denied even the privilege of making complaint, because the alert citizen is compelled to endure the results of the critic's lack of thought and activity also. Things in this world worth while are worth striving for, and surely honest, efficient, good government for the people can be safely placed in the category of things worth having.

With the special interests daily increasing their activities as the time for selecting governmental officers of all kinds approaches it behooves all those who believe in government based upon the consent of the governed to take note of coming events and be in a position to make their citizenship prerogatives effective by being qualified to cast their ballots for both candidates and measures that are in harmony with their principles and desires.

Nothing can be accomplished by disinterested inaction, and the people absolutely can get what they want in this country if they will take interest enough in public affairs to exert their influence at election time by voting. To do this one must be prepared. Are you registered?

To be qualified to exercise the privilege of voting for candidates at the primary election it is necessary that your name be on the register thirty days preceding that event. The primary this year occurs on August 29th, so that the time for registration is growing short. Bear this in mind and proceed at once to do your duty by registering.

TYPOGRAPHICAL TOPICS

At a pretty church wedding at Manteca, on Saturday, July 1, Miss Rolla Bonnington, daughter of Mr. and Mrs. Frank J. Bonnington, became the wife of Lafayette D. Mathews. The ceremony was performed by the Rev. W. Platt, brother-in-law of the bridegroom, in the presence of the immediate families of the contracting parties. After the ceremony a wedding breakfast was served at the Waukeen Hotel, following which the newlyweds departed on a honeymoon trip to be spent in the southern part of the State.

The bride, who is an accomplished musician and vocalist and a talented artist, following her graduation from Fremont High School, Oakland, in 1916, won a scholarship in and graduated from the Standard Commercial School, which, it will be remembered, was a feature of the Panama-Pacific International Exposition of that year, its classes being held in one of the exhibition buildings. Up to the time of her marriage Mrs. Mathews was office manager of the Bowen-California Electric Car Company of this city.

Mr. Mathews is connected with the K. L. Hamman Advertising Agency of Oakland, with which concern he has been since his honorable discharge from the army at the close of the world's war. While in the service Mr. Mathews rose to the rank of captain of infantry.

Mrs. Mathews is quite well known to the members of San Francisco Typographical Union, and heartiest good wishes go to the young couple, who will make their future home in Oakland.

The Label Committee of Typographical Union No. 21 will convene in regular monthly session next Monday evening, July 10, at 8 o'clock. As there is a considerable volume of work to be transacted at this meeting, a prompt and full attendance of the committee is desired. Selection of a committee chairman will be made at this meeting and plans discussed for even a more vigorous label campaign the ensuing twelve months than was conducted last year. Joseph Bradway, H. R. Calhan, J. C. Crawford, Eugene Donovan, R. H. Goewey, E. L. Jansen and W. H. von Kinsky are the supervisors of the label work of the union.

The following is a summary of the official canvass of the vote for International Typographical Union officers, the election of which was held May 24th: President—Barrett, 24,219; McParland, 28,752; McParland's majority, 4533. First vice-president—Campbell, 25,069; Howard, 27,137; Howard's majority, 2068. Second vice-president—Hoban, 25,884; Trotter, 26,024; Trotter's majority, 140. Secretary-treasurer—Hays, 27,566; Towne, 25,061; Hays' majority, 2505. Home trustees—*McCaffery, 27,694; *Brown, 24,005; *Knock, 22,793; Close, 22,483; Wilson, 11,969; O'Leary, 22,564; Vanice, 21,439. Board of auditors—Baird, 26,094; Corcoran, 24,415; Baird's majority, 1679; Agent Union Printers Home—Johnson, 26,594; Bush, 23,724; Johnson's majority, 2870. Delegates to American Federation of Labor—*Morrison, 39,872; *Hayes, 27,046; *Couch, 26,169; *Young, 26,119; *McCullough, 25,759; Donovan, 24,917; Moore, 22,362; Hicks, 23,494; Sheil, 22,430; Cribb, 6411. Delegates to Trades and Labor Con-

gress of Canada—Howard, 26,930; Murray, 21,786; Howard's majority, 5144. *Elected.

The Union Printers Mutual Aid Society, which is composed of members of San Francisco and Oakland Typographical Unions and San Francisco Mailers' Union No. 18, will hold its annual election of officers at a meeting to be held Sunday, July 9, at 2 o'clock p.m., in Union Hall, Labor Temple, Sixteenth and Capp streets.

Labor education has received a considerable boost in Southern California as a result of a seventeen-day visit of David Weiss, A.M., director of the Labor College of San Francisco, to Los Angeles, Pasadena and San Diego. Mr. Weiss, who returned from his southern tour a week ago, is a member of San Francisco Typographical Union. In a conference with Seth R. Brown, president of the California State Federation of Labor, Mr. Weiss outlined a plan that would divide the state into six sections, each in charge of a labor educational committee, which would have charge of all educational activities in its territory. A state educational committee, appointed or elected at the State Federation of Labor convention, will co-operate with the local groups to aid in the organization of study and lecture classes and in the obtaining of instructors. President Brown favors an independent educational body to be controlled and directed by organized labor, according to Mr. Weiss. The educational committee, however, will co-operate with any public body that wishes to aid in the labor movement in educating its members. In an address before the Federated Trades Council of San Diego, Mr. Weiss briefly outlined the importance, the need and the purpose of labor education. And, judging by the lively discussion and questions that followed the talk, delegates to the council will take the question up before their unions and attempt to organize at least one class to study labor economics and labor history. Labor conditions, especially in the building trades, are showing constant improvement in Southern California, said Mr. Weiss. The open shop campaign that was especially strong in Los Angeles and San Diego last spring is gradually losing force and being discredited by fair-minded employers.

The reputation gained by the San Francisco Bay Cities Club of Printing House Craftsmen for its insistence upon printing of the highest class is sustained again this month, as witness the announcements of its next meeting, just off the

press of Johnck, Beran & Kibbee. The July meeting of the club will be held Monday, the 10th, at 7:45 o'clock p.m., at the Commercial Club, thirteenth floor of the Merchants' Exchange Building. This meeting will be in the nature of a forum, where each member present may express himself on the subject under discussion. The subjects to be debated are: (1) "Definite Aims and Ideals of a Craftsmen's Club"; (2) "The Club as a Factor in the Development of Better Craftsmen"; (3) "How Can a Craftsmen's Club Stimulate the Demand for Better Printing?" (4) "Educational Programs"; (5) "Futility of Vocational Schools for Teaching Printing"; (6) "Clubrooms and Library." Mr. John Henry Nash has kindly consented to allow his copy of "A Noble Fragment" of a Gutenberg Bible to be exhibited at this time. Gabriel Wells of New York bought an incomplete Gutenberg Bible, printed 1450-1455, separated the leaves and rebound them with a bibliographical essay by A. Edward Newton, a copy of which was purchased by Mr. Nash. Henry Stephens of Vermont, who brought the first Gutenberg Bible to America, is credited with writing: "Let no man see it without first reverently raising his hat. It is not possible for many men ever to touch or even look upon a page of a Gutenberg Bible."

SAN FRANCISCO LABOR COUNCIL**Synopsis of Minutes of June 30, 1922.**

Meeting called to order at 8:15 p. m. by President Hollis.

Reading Minutes—Minutes of the previous meeting approved as printed in the Labor Clarion.

Credentials—Ladies' Garment Workers—Brothers, Sallinger, Moskowitz, Greenberg. Typographical No. 21—J. J. O'Rourke. Sausage Makers—Conrad Gabler, vice Geo. Link. Delegates seated.

Communications—Filed—From R. M. Tobin, acknowledging receipt of \$225.70 for Disabled War Veterans' Convention Fund. Garment Workers' Union of Los Angeles, relative to minimum wage controversy. From Mr. Edward Rainey, secretary to the Mayor and the Board of Public Works, acknowledging receipt of Council's resolutions, relative to the delivery of electricity from Hetch-Hetchy by a transmission and distributing system. From U. S. Senator Shortridge, relative to the Ship Subsidy Bill. From Professional Embalmers, inclosing donation of \$10.00 to the Disabled War Veterans' Convention Fund.

Referred to Secretary—From the Central Labor Council of Los Angeles, relative to the candidacy of Judge Kerrigan and Charles C. Johnson.

Referred to Executive Committee—From Retail Shoe Clerks No. 410, with reference to the unfair attitude of Frank-Cohn, furnishers and hatters, 2784 Mission street.

Requests Complied With—From the Central Labor Council of Los Angeles, with reference to the unfair attitude of the Moving Picture Producers of that city, and requesting the Council to write Mr. Will H. Hays on the matter. From the University of California with reference to Extension courses and requesting the co-operation of the Council.

Resolutions—Were introduced by John A. O'Connell, delegate from Teamsters' Union No. 85, requesting all members of affiliated unions and friends of labor to be sure and register. And that copies of this resolution be sent to all affiliated unions. Moved that the resolutions be adopted; carried.

Resolutions—Were introduced by Delegate Roland Roche, requesting the Council to urge upon our Senators and Representatives in Congress, the Secretary of War to accept the bid of Henry Ford for the development of Muscle Shoals. Moved that the resolutions be adopted; carried. The resolution reads:

Whereas, Pursuant to the laws of this State there is in progress a new registration of voters since January 1, 1922, and said laws require that every person who desires to vote at the coming state primary election to be held Tuesday, August 29th, must be registered not later than thirty days before the said election; and

Whereas, According to report of the registrar of voters of this city, the new registration this year falls short of the number for corresponding dates of two years ago, thereby indicating that unless the citizens of this community awake to a keener realization of their duties in the premises they will signally fail at the polls to preserve the State and national government in a condition at least partially responsive to the popular will; and

Whereas, The forces of special privilege and political and industrial autocracy are gathering their forces in formidable strength and expressing great confidence in winning a victory at the polls for their candidates subservient to their selfish interests and frankly opposed to present day ideals of social progress and the building up of a government dedicated to the cause of doing the greatest good to the greatest number; therefore, be it

Resolved, By the San Francisco Labor Council, in regular meeting assembled this 30th day of June, 1922, that we sincerely urge upon all affiliated unions and the citizenship in general, all men and women devoted to the public welfare, that they each and all make it their business for the coming few weeks to ask every person whom they meet and know this pertinent and important question: "My friend, are you registered?" for the purpose of calling out as big a vote as possible of all friends of progress and thereby defeat the schemes of the forces of reaction to capture control of the legislative, judicial and executive branches of our state and national government, a thing that must be prevented and that can be easily prevented if only every man and woman who knows the value of citizenship will avail himself or herself of the privilege given them under the constitutions of this country to cast a vote for the principles which they support and cherish.

Report of Executive Committee—In the matter of application for advice from the Metal Polishers' Union, relative to an increase of 7½ per cent, your committee recommends that the union take no action until the officers of the Council have an opportunity to arrange a conference with the employers on the subject matter. In the matter of request for advice and assistance from the Stove Mounters' Union, your committee recommends that the Council endorse the proposed strike subject to the approval of its International Union. Report concurred in.

Reports of Unions—Culinary Workers—White Lunches, Chris's and Compton's still unfair; have negotiated agreements for union shop conditions in all first-class houses. Boiler Makers—Are on strike at shipyards in San Francisco and vicinity.

The chair introduced Mrs. Florence Lutz, who gave a dramatic reading from the comedy, "Lightning."

Auditing Committee—Reported favorably on all bills and warrants were ordered drawn for same. Receipts—\$123.10. Expenses—\$215.00.

Council adjourned at 10:30 p. m.

Respectfully submitted,

JOHN A. O'CONNELL, Secretary.

George A. Tracy has been, for the second time, elected President of the San Francisco Civil Service Commission. The term runs one year.

The Ice Wagon Drivers' Union has elected these officers for the ensuing term: Oscar Franson, president; R. F. Sotter, vice-president; V. Hummel, recording secretary; A. J. Martin, secretary-treasurer.

At the last regular meeting of the Stationary Firemen's Union the following officers were elected without opposition: President, James Coulsting; vice-president, J. J. Shay; recording secretary, John B. Faulkner; secretary-treasurer and business agent, Denis Foley; guardian, James Kerr; guide, Joseph Halk; trustees, M. Hackett, James Bell, William Renfrew; delegates to Labor Council, James Coulsting, Denis Foley and J. D. Faulkner.

A joint meeting of the Labor Day committees of the Labor Council and the Building Trades Council will be held in the Labor Temple, Sixteenth and Capp streets, tomorrow evening, July 8, at 8 o'clock, when plans will be mapped out for the coming Labor Day celebration Monday, September 4.

Michael J. Maguire, president of the Boilermakers' Union, and George Hoffman, a member, arrested on charges of violating the anti-picketing ordinance in front of the Bethlehem Shipbuilding Corporation, were dismissed by Police Judge Sylvain Lazarus last Friday for lack of evidence. It was shown that the pair were sitting in an automobile in front of the plant. They were arrested by Police Sergeant John Collins.

Denis Foley, business agent of the Stationary Firemen's Union, left last Saturday for an extended Eastern trip during which he will visit many points of interest. Foley is accompanied by his wife, who is to visit relatives during her tour. The couple will be absent about six or eight weeks.

Secretary O'Connell and wife left last Saturday morning for a vacation of two weeks in the mountains. They expect to spend the greater part of their time at Adams Springs, where they pay an annual visit.

Miss Sarah Hagan returned on Monday from a week's rest in the country. She will take another week later in the year. Evidently she does not believe in spending her entire vacation period in one place or all at one time.

John P. McLaughlin and P. H. McCarthy returned from the American Federation of Labor Convention the latter part of last week. They report the gathering one of the most successful in the history of the organization. The strenuous fight that labor has had to make during the past year served to bring about a greater degree of harmony than had prevailed for many years.

The Cooks' and Waiters' Unions have negotiated a renewal of their wage scales and working agreements with the managers of all class "A" hotels, cafes and restaurants in this city for another year, dating from September 1, 1922, according to announcement made today by Hugo Ernst, secretary of Waiters' Union No. 30. This means that all first-class hotels, cafes and restaurants in San Francisco will continue to operate

under a union agreement for the next twelve months, during which period there will be no change in wages, hours or working conditions of the cooks and waiters. The agreement has been ratified by vote of the members of both the Cooks' and the Waiters' Unions.

Organizer J. B. Dale of the American Federation of Labor has been in and out of the city two or three times during the past two weeks. He is at present busy in organizing the school teachers of Los Angeles and other cities in the southern part of the State.

Harry Ryan, after spending some time in Los Angeles, has returned to his ranch in the Santa Cruz mountains. Labor Commissioner Walter Matthewson is also said to be refreshing himself in that section of the woods.

Local trade unionists have been invited to attend the basket picnic to be held at Congress Springs, Santa Clara County, July 23, under the direction of the Women's Union Label League of San Jose.

The extension division of the University of California has invited the Labor Council to make suggestions for the course of lectures which the extension division plans to have delivered before the Council during the coming fall.

A vote of thanks was given Representative John I. Nolan of San Francisco by the American Federation of Labor at its recent convention in Cincinnati for the "good work" done by Nolan in "safeguarding the interests of labor in the House of Representatives," where he is chairman of the committee on labor.

"Contrary to reports published in several daily newspapers in which it was stated that the strike of timber workers at Klamath Falls had been called off, we wish it to be known that such is not the case and that it will not be called off until the eight-hour day is restored in the strike area. We further wish to make it known that we will order and support strikes in any other part of the country where the eight-hour day may be attacked and where the men involved will make a protest. In spite of the wholly unwarranted and uncalled for action of the Labor Commissioner of the State of Oregon, the Klamath strike will be kept in full force and effect. The employers in that section have succeeded in recruiting a few strike-breakers, they would be better off if they did not have any of them, they are wholly incompetent and the employers are daily losing thousands of dollars in wasted timber and time loss. It is only the silly pride of the employers that prevents the admission of their defeat, and even that will melt in the face of long-continued losses," says a bulletin of the union.
